Cleaning & Care

- Clean up spills immediately. Any splashes of water should be wiped away with a dry, soft cloth immediately. Water can seep into the timber, and if left for a prolonged period, can cause damage and/or warping of the top.
- Do not use cleaning products on the timber top. Wipe with a clean, soft cloth and warm water to clean. After cleaning, make sure the top is completely dry and that no water remains.
- To maintain the finish, a **silicone-free** furniture polish may be used. Do not use silicone-based polish as this can damage the finish. Test in an inconspicuous area before polishing the whole top.

While we aim to ensure specifications are correct at the time of publication, Fienza reserves the right to make modifications without prior notice. Physical colour may vary from image shown. All measurements are shown in millimetres. Always use physical product measurements for mark-ups and roughing-in as the technical drawing may differ from actual product received.
